

Church Onboarding

Step 1 — Create Church Account

- Church name
- Website
- Location
- Primary admin
- Church size

Step 2 — Connect Church Systems

Connect GathUr to existing tools:

- Planning Center
- Church Center
- Breeze
- Subsplash
- CSV/member database

Step 3 — Choose What GathUr Should Help With

Church selects its priorities:

- Connect new attendees
- Help people find groups
- Re-engage disconnected members
- Strengthen groups
- Improve follow-up
- Track community health

Step 4 — Set Connection Rules

Define things like:

- What counts as “new”
- When someone is considered unconnected
- When someone is considered drifting
- Which ministries/groups GathUr can recommend

Step 5 — Add the Church Team

Invite:

- Pastors
- Ministry leaders
- Group leaders
- Connection/follow-up team

Step 6 — Review Community Setup

GathUr shows:

- Imported members
- Groups
- Events
- Leaders
- Any missing information

Step 7 — Launch GathUr

Church publishes its GathUr community and begins inviting members.

Church Flow:

Create Account → Connect Data → Set Goals → Configure Connection Rules → Add Team → Review → Launch
